

Newsletter No .2 Macedonia, 12-18.05.2019 Tetovo

European citizens of tomorrow

The planned activities are going to be developed based on the findings of the latest research in the learning styles area. There are several main learning styles: visual, aural, verbal, physical and social. The following activity will be the exchange programme, and after each exchange the teachers will work with the students and involve them in specifically designed activities for such students. During each exchange, the host team will be in charge of demonstrating the activities to the other teams of students from the participating partner countries. Apart from focusing on the learning styles, all the exchanges will be related to a certain subject or set of skills that need to be improved. The Project lasts for two years (from September 2018 to August 2020). The project consists of five countries: Italy, Macedonia, Turkey, Romania, and Portugal.

What we have done?

The second mobility of the project "European Citizens of Tomorrow" has been just concluded. The students from Macedonia, Portugal, Romania, Italy and Turkey have attended the second meeting in Tetovo, where together with their Macedonian hosting partner, have practiced maths activities created to accomplish the aural learning style. In a

joyful atmosphere, students from 11 to 16 years spent a week in Tetovo greeted by the staff of our organization: Violeta Srbinovska, Katica Taseska, Dragana Milosavleska, Radmila Dimovska, Dushko Perinsky, Ilcho Vitanovski and Aleksandar Petrovic who worked hard to prepare their arrival. Furthermore, the team worked on the meetings and the future development of the project. On the first day the students had activities for acquaintance.

All partner schools presented their delegations, displaying pictures of their countries and schools. The Director, Mr. Nebojsa Trpkovski, presented the school SSOU Mosha Pijade and together with the representatives of the partner schools, Violeta Srbinovska, Teresa Botelho, Simona Barbu and Muhsin Kose presented themselves to the audience.

Newsletter No .2 Macedonia, 12-18.05.2019 Tetovo

In the following days, all delegations were included in the project meetings, as well as in the mathematical activities. Also, cultural excursions were organized: a visit to Leshok (nearby village in Tetovo), the old part of Tetovo, a visit to Skopje and Ohrid. The meeting ended on Friday the 17th with a farewell lunch, with the participation of the whole school team and the delivery of certificates for participation by the Head of Public Activities in the municipality of Tetovo. On Saturday, the 18th delegations left our city to return home, leaving the sadness of goodbye, but with a great pleasure to all who have gained such a new experience.

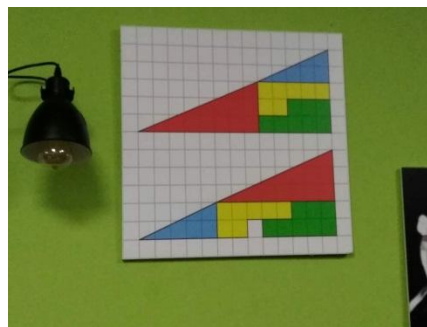

Next Steps

See you in Romania at the third meeting from 10 to 16 November 2019.

Our Project is in Press!
